Dear Prep,

Your game is amazing! I think games are like stories, full of interesting characters, problems and solutions. Thank you for sharing your ideas with me.

My sister said I should go looking for my dog. So Kim and I went exploring in the park.

Did you know that when we went to the park and pretended it was a forest we saw lots of animals? We saw a parrot with colourful feathers, a lizard that hid under a rock, a noisy kookaburra and a dead toad. There was a snake skin hanging out of a tree. It was scary.

I did not see my dog.

From
Sam

P.S. What do you think we should tell my sister?
