

Game instructions: 'r' blends

The aim is to recognise and match pictures with initial 'r' blend sounds. This is a game for two players.

You will need

Cards cut from **Sheet — Word sort: 'r' blends**.

What to do

1. Divide the cards evenly between the two players, picture side down.
2. Both players turn their top card over at the same time and place it in the centre of the table. If the pictures begin with the same blend, the first person to say 'blend' wins the cards. If the pictures do not match, the next card from each player is turned over until a match occurs.
3. Play continues until all cards in each player's pile have been turned over.

Variation

Players can decide if they will continue the game until all possible blends have been made. (There are 18 possible blends.)

Remaining cards will have to be dealt again.
