

This package of curriculum resources provides learning opportunities for students to continue their educational development and progress while not being able to access a school.

It is anticipated that the resources could be used in a variety of contexts, including teacher-directed, parent-supported or students working independently. However, students in Prep to Year 3 will require adult support to read and understand instructions and possibly scribe responses and answers to questions.

As students work through these resources, it is important that regular contact be maintained between classroom teachers and parents/students.

No assessment lessons or tasks are included in this package.

## Structure

The materials contained in this package include:

- lessons including links to resources.

## Lessons

There are ten lessons contained in this package. Students will need to complete them in the following order.

- Lesson 7 — [Modelling addition situations](#)
- Lesson 8 — [Representing addition \(1\)](#)
- Lesson 9 — [Representing addition \(2\)](#)
- Lesson 16 — [Exploring part-whole relationships](#)
- Lesson 17 — [Representing addition as combining parts of a whole](#)
- Lesson 18 — [Exploring flexible partitioning \(1\)](#)
- Lesson 19 — [Exploring flexible partitioning \(2\)](#)
- Lesson 26 — [Exploring the concept of sharing](#)
- Lesson 27 — [Making equal parts of a whole](#)
- Lesson 28 — [Sharing collections](#)

## Resources

Resources required are listed within the materials. Common objects can be substituted.

Students:

- will need access to everyday stationery supplies, such as pencils, pens, an eraser, colouring pencils
- may print the worksheets if they have access to a printer, or write responses in an exercise book or on paper
- may need access to an internet search engine to locate particular educational resources or websites.

## Online safety warnings

Assess websites for suitability prior to displaying to your child.
