Hi friends,

I am very excited because I have just booked my holiday to the snow for next year. I am going to visit my friend William who lives in the Snowy Mountains. He is an amazing snowboarder and has sent me a photo to put on my fridge.

William also sent me a photo of his dog Walter. Walter is so cute. But I wonder how he keeps Walter warm when it is snowing. My dog sleeps outside in his kennel. I wonder if Walter does?
