

This package of curriculum resources provides learning opportunities for students to continue their educational development and progress while not being able to access a school.

It is anticipated that the resources could be used in a variety of contexts, including teacher-directed, parent-supported or students working independently. However, students in Prep to Year 3 will require adult support to read and understand instructions and possibly scribe responses and answers to questions.

As students work through these resources, it is important that regular contact be maintained between classroom teachers and parents/students.

No assessment lessons or tasks are included in this package.

Structure

The Mathematics materials contained in this package include:

- lessons including links to resources.

Lessons

There are ten lessons contained in this package. Students will need to complete them in the following order:

- Lesson 1 — [Describing patterns involving objects and numbers](#)
- Lesson 2 — [Describing growing patterns in counting sequences](#)
- Lesson 3 — [Counting by 10s](#)
- Lesson 4 — [Representing and recording counting sequences](#)
- Lesson 6 — [Describing number patterns](#)
- Lesson 7 — [Representing multiples of 10](#)
- Lesson 8 — [Comparing quantities](#)
- Lesson 9 — [Recording equal quantities](#)
- Lesson 11 — [Representing two-digit numbers](#)
- Lesson 12 — [Partitioning two-digit numbers](#).

Resources

Required resources are listed in the materials.

Students:

- will need access to everyday stationery supplies, such as pencils, pens, an eraser, colouring pencils
- may print the worksheets if they have access to a printer, or write responses in an exercise book or on paper
- may need access to an internet search engine to locate particular educational resources or websites.
